Hi Mary,

Melissa is out until Thursday but I'll have someone else follow up with you.

Subject: Question about Superfund sites being redeveloped by schools

Hi Melissa,

Tonya and I are working on a project in Des Moines where the school district is considering building a large athletic stadium on the site. The stadium would be used for football, soccer, and track events, as well as marching band competitions etc. The city has asked us to support them in developing public communications that will help gain the support of their constituents (mainly parents). We recognize that parents may have concerns about their children participating in events on a Superfund site. One piece of information that would be especially helpful is to know whether other sites around the country have been redeveloped for school-related purposes. Can you provide us any information on that?
